ROOSEVELT'S RETALIATE: IN CLOSING CONSULATES APPROVED

WASHINGTON, June 17 (Reuter)—THE UNANIMOUS VIEW TAKEN BY AMERICAN RADIO COMMENTA-TORS LAST NIGHT WAS THAT AMERICAN AND GERMAN RELATIONS WERE AT BREAKING POINT. MANY BE-LIEVE THAT HERR HITLER WILL RETALIATE.

Government officials will not disclose the evidence which led to President Roosevelt's order for the expulsion of German Consuls, but the WASHINGTON POST states that other sources reveal that the German Consuls are charged with disseminating Nazi propaganda, directing the work of the Nazi party in the United States, attempting to influence newspapers and distributing funds to be used for anti-American activities.

The same newspaper, in an editorial, DECLARES THAT THE FILES OF THE DEPARTMENT OF JUSTICE ARE OVERFLOWING WITH EVIDENCE OF SUBVERSIVE ACTIVITIES WHICH HAVE BEEN UNDERTAKEN IN AMERICA AT THE INSTIGATION OF BERLIN, OR MOSCOW, OR BOTH COMBINED.

Chinese

First Sergeant Samuel Krus is an ideal man to supervise Chinese draftees in the United States Army. Sergeant Krus served with the Fifteenth Infantry in Tientsin, China, in 1934 and gained a fair command of the Chinese language. Thus he is able to drill the draftees in their native tongue. Sergeant Krus is shown with his Chinese soldiers at Fort Dix, N.J. This is the first opportunity he has had since his return from China to put his lingual ability to practical use. All but two of the 14 Chinese draftees at Fort Dix, who were inducted into the Army from New York City, are scheduled for duty at the Artillery Replacement Centre at Fort Bragg, N.C.

STAMP COLLECTING A GOOD INVESTMENT

Rotarian Ohl's Interesting Address At Rotary Meeting

In these days of uncertainty regarding a good investment, there hardly an investment better than that of collecting stamps liable to prove a profitable asset, stated Rotarian R. Ohl when he addressed the Hongkong Rotary Club yesterday on the subject "Some Sidelights on the Hobby of Stamp-Collecting."

There was hardly a share on the world market, Rotarian Ohl said, that has improved as consistently over the years in value as have stamps. From comparisons made between the quotations of catalogues issued 25 years ago and those of the latest catalogues, it could be learned that the average value of stamps has increased in the proportion of 50 times over the 1916 value for rarities, of 20 to 30 times the value quoted in that year for semi-rarities, and from 10 to 30 times for the more common varieties.

He had to send out also 165 times 100 different stamps, but these were relatively easy to get together from among low denominations issued in Hongkong. China, the Philippines, Siam. Indo-China, the Netherlands East Indies, Japan and India.

FAMOUS DISCOVERIES

Mr. Ohl related also some interesting stories of the more famous discoveries. Many nave heard, he said, of the famous Mayfair discovery made some 15 years ago in a London nat, when a certain number of sheets in mint condition of the early stamps soid in British India were found in L secret drawer.

These stamps had been acquired about 70 years previously by a British gentleman residing in India who had stored them in the drawer and probably never thought any more about them. One of his descendants found them and realised a sum of £7,000 on them at auean instance amous others of the soundness of an investment in stamps.

Then there was the story of the famous one cent magneta colour of British Guinea issued in 1856. The British Guines boy who found it on an old family letter 67 years ago sold it for six shillings.

In 1922, Arthur Hind, the U.S. collector, bought it for £7,843. It was mislaid after his death and his widow instituted a law suit. over it. Found again, it was insured with Lloyds for £10,000 and this was the reserve price fixed for it when it was put on auction in London over an year ago. It found no blider then, but had the situation in Europe been different It may have fetched £15,000.

'NEW ORDER' BLESSINGS

In spite of steadily increasing costs of living in Norway, the Ger man authorities have opposed all attempts to raise wages, is is reliably reported from Oslo.

At the same time they are destroying the carefully-built up body of laws passed for the protection of workers by such actions as forcing employees in automobile factories to work a ten-hour day with no increase in pay, and by forbidding labourers and servant girls as well as industrial workers to guit their jobs.

Mr. Carrie, addressing the Council. said that the meeting was concerned with the problem of the hawker of cooked food. LISTENING POST

The picture shows a room at the headquarters of the BBC's Monitoring Service which employs over 400 people on the work of listening to, recording and noting night and day the broadcasts of about forty countries in thirty languages. More than a hundred experts working in shifts listen here on earphones to over a million words daily, including 230 news bulletins. By pressing a button everything heard can be recorded mechanically and double-checked for accuracy. From this Listening Post, news and significant items are flashed to the BBC newsrooms and Whitehall by teleprinter. Translations of verbatim broadcasts are also boiled down by a sub-editorial staff into a Daily Digest of some 50,000 words.

ANGLO-AMERICAN AMITY STRESSED AT R.A.F.A. TIFFIN IN SHANGHAI

In a brief address delivered at the weekly tiffin of the Royal Air Force Association, Shanghai, here in the dome recently. Lt. Col. Collier of the Fourth Marines laid emphasis on the friendship between him and members of the association and other members of the British community and declared that international friendship would not be worth the paper it is written on, unless based on sincere friendship of the nationals of the countries concerned. The two guests of honour were Lt. Col. Collier, who is leaving shortly to assume duties in America, and Col. Samuel Howard, who was accorded an enthusiastic welcome. The former was the recipient of a suitably inscribed R.A.F.A. tankard with the best wishes of the association.

Deducting the millions lost by the cessions of provinces to Russia. Bu'garla and Hungary, there are still 12,000,000 Rumanians in Rumania. From my survey of all classes and districts I am convinced that hardly a member of the population does not detest and despise the Nazis, states a special correspondent. A prominent Rumanian business man said to me, "Though we naturally notice how the Nazis arexploiting us in material ways, the basic cause of our resentment is moral rather than material. "We see how Hitler has sold us out again and again when it suited his purposes, while all the time he has been pretending to be our protector against Russia." Continued sabotage—such as the piles of twisted wreckage I saw along the train stretches en route to Bulgaria—is proof of the Rumanian resentment. Throughout Rumania, I found people standing in long lines for hours to buy kerosone, used almost universally in the countryside for lighting purposes. This while Rumania with its rich oil fields has an excess of gasoline and fuel oil. INDO-BURMESE **PROBLEMS**

CALCUTTA, June 17 (Reuter) -Indo-Burmese trade problems having been solved by negotiation and the recent Indo-Burma trade pact having been signed, the stage is set for a solution of the problem of Indian immigration.

The arrival of a delegation headed by Mr. Bajai, the Viceroy's Councillor, to this end has aroused the keenest interest

The Riot Enquiry Committee of 1938 traced the disturbance partly to the "apprehensions of Burmans at the presence of a large number of Indians in Burma."

The Baxter Commission embarked on a wide fact-finding fore both governments for some time though not published.

AFTERMATH OF LOFOTEN

The latest in the long series of reprisals taken by the Germans against the inhabitants of the and Norwegians last March, has just been reported from Norway, Angered by the military success of this raid and by the fact that so many Nazis were captured, the occupation authorities proceeded to take revenge upon the innocent fisher

Houses were burned, one person was shot, and towns of Svolvaer, Vaagan and Hole were sentenced to pay a fine of 100,000 crowns. The popular indignation which swept over Norway following this treatment, found concrete expression in money contributions for the islanable to pay its share—35,000 crowns-within a few days.

However, when the Nazis learn Norway had paid this fine, they ordered the town to pay the 35,000crown fine all over again. And to make sure the inhabitants pay it themselves, the Germans have drawn up the following schedule of taxation: persons with bank accounts, cash and stocks must pay

a six-mill levy on the total amount: while those with other types of investments pay four mills.

In addition, all persons must pay a percentage of their yearly income as follows: incomes up to a thousand crowns: one per cent; incomes between one and ten thousand crowns, two per cent; and those above ten thousand, three per cent

CHARITY GALA ON JULY 26

400 YARDS MIXED RELAY RACE

At a meeting, held yesterday evening at the Victoria Recreation Club, of representatives of the combined Chinese Clubs and the European Y.M.C.A. and the V.R.C. it was decided that the 200 yards back-stoke event be altered to a 400 yards mixed relay race, comprising four ladies and four men in each team.

This meeting was in connexion with the forthcoming Charity Gala between the combined Chinese Clubs and a team from the European Y.M.C.A. and the V.R.C. on July 26. This is the second meeting and the organisers are leaving no stones unturned to make the gala a great success.

PRICE OF PROGRAMMES

It was proposed and carried that programmes be sold at 30 cents each at the entrance on the night of the gala. The proceeds, which are in aid of the Bomber Fund and the British Fund for the Relief of Distress in China will be greatly augmented by the heats of the combined Chinese Clubs at the V.R.C. in preparation for the meet, although the day has not yet been fixed, when a charge of 30 cents will be made for admission.

Members who attended the meeting yesterday were Messrs. A. A. Noronha and L. Roza Pereira (V.R.C.), R. Goldman and E. W.
